

YACHTS SOCIETY

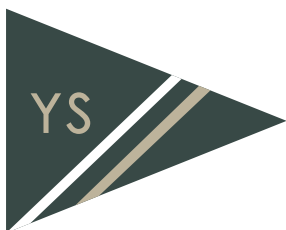

THERE ARE NO DIFFICULT WEATHERS ...
THERE ARE ONLY WEATHERS AND WE
ARE CALLED TO TRAVEL THEM ALL

IOANNIS TSIMTSILIS
FOUNDER AND VICE PRESIDENT

That's why Yachts Society is charting its own path into the sea and yachting with innovative ideas adapted to the new era. The Yachts Society started and remains a family company. Only in this way can we maintain the high level of service and continue to respect our charterers. Our fleet includes catamarans, classic sailing yachts, motor yachts - privately owned in majority - on two bases, Athens and Mykonos.

Our philosophy, from the smallest to the largest and from the oldest to the newest yacht, is that every person who has the pleasure to travel with them should experience the **"REAL YACHTING LIFE"**.

So we are leading the way. All of our yachts are equipped with comfort systems even in the basic charter version, offering a unique experience to those who will choose a yacht vacation with one of our boats. We do not want just to charter a yacht. We want our customers to feel safety, comfort and confidence on their yacht vacations. Leave the rest to us.

The Chartering Department organizes in every detail the chartering of any yacht according to the client's wishes while the Operations Department is open 24 hours a day - 7 days a week in order to serve each one of our yachts at any island or spot in the Aegean and the Greek seas. In keeping with these changing times and in the course of developments, we always remain at your disposal to get to know yachting through the prism of Yachts Society and welcome you on board with joy.
